PETITION FOR RECONSIDERATION AND REQUEST FOR WAIVER
BY THE SOUTH DEARBORN COMMUNITY SCHOOL CORPORATION

Pursuant to section 1.106 of the Commission’s rules, the South Dearborn Community School Corporation (SDCSC) respectfully requests that the Wireline competition Bureau reconsider its decision to dismiss SDCSC’s appeal of a USAC funding decision. SDCSC seeks reconsideration because the appeal was dismissed as moot with the reasoning that “where USAC had taken the action the petitioner requested and issued new decision approving funding”. Unfortunately, USAC has not corrected the \$0.00 funding commitment nor has a Revised Funding Commitment Decision Letter been issued. Staff at USAC have created an internal appeal to review this issue but have not indicated that funding approval is imminent.

We have attached documents detailing the background of this issue, including the original FCC Appeal with supporting documentation as well as a summary Customer Service Case with the internal USAC appeal. Given the continued question surrounding the funding we request that the Bureau grant this petition for reconsideration, reversing the dismissal, and granting SDCSC’s request that the originally requested funding commitment of \$27,342 be awarded, adjusted to meet the C2 budgets, and accurately reflected in EPC.
